

DEEPANSHU SHUKLA

Software Engineer • Mobile & Full-Stack Developer

+91 95990 27207 | deepanshu.26436@ggnindia.dronacharya.info | Delhi, India | [LinkedIn](#) · [GitHub](#) · [LeetCode](#)

SUMMARY

Fourth-year Computer Science and Information Technology (CSIT) undergraduate with hands-on experience building cross-platform mobile and full-stack applications using Flutter, Firebase, React and Node.js. Comfortable across the stack — from API design and back-end connectivity (REST, JWT) to data-driven dashboards in Power BI — with a strong foundation in Data Structures & Algorithms (C++) and a focus on shipping reliable products.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, Dart, SQL, JavaScript, TypeScript, PHP, HTML5, CSS

Frameworks & Libraries: Flutter, React.js, Node.js, Express.js, Firebase

Databases: MySQL, PostgreSQL, SQLite

Tools & Platforms: Git & GitHub, Postman, Power BI, Excel, MS Office, Visual Studio, VS Code, Jupyter Notebook

Concepts: Data Structures & Algorithms, OOP, DBMS, Computer Networks, REST APIs, JSON, JWT Authentication, Offline-First Architecture, Data Analysis

WORK EXPERIENCE

Front-End & PHP Developer · Internshipwala

- Built responsive front-end interfaces and developed PHP-based back-end functionality for web applications.

Power BI Developer (Intern) · AICTE

- Designed interactive Power BI dashboards and reports to transform raw data into actionable, data-driven insights.

Flutter App Developer · Dronacharya College of Engineering

- Developed mobile applications using Flutter and Firebase, integrating real-time databases and authentication.

PROJECTS ([link](#))

Mind Mirror — AI-Powered Voice Journal (Web App)

Built a privacy-focused voice-journaling app with real-time audio recording, transcription and intelligent session tracking to support self-reflection and behavioural insights.

Tech: React (Vite), TypeScript, JavaScript, HTML5, CSS, Web APIs (MediaRecorder), AI speech processing

Trip Riser — Real-Time Trip Planner with Weather Intelligence

Developed a smart travel planner with route optimization, live weather forecasting and POI recommendations, built on an API-driven architecture for dynamic route insights, cost estimation and persistent trip management.

Tech: Flutter, Firebase (Firestore, Authentication), Google Maps API, Google Places API, OpenWeatherMap API

College ID Scanner — Mobile App | Flutter | Offline-First

Built a full-stack college ID barcode-scanning app with admin/user roles and an offline-first architecture — on-device SQLite for instant lookups, syncing on demand to a Node.js + PostgreSQL back-end.

Tech: Flutter (Dart), Node.js, Express.js, PostgreSQL, SQLite, REST API, JWT Authentication, Shared Preferences

Smart Inventory Management System — Web App | Full Stack | Data Analytics

Built a full-stack inventory system for product tracking, supplier management and predictive analytics, with dashboards for demand forecasting powered by a PHP + MySQL back-end.

Tech: PHP, MySQL, HTML5, CSS, JavaScript, Python (Data Analysis), Power BI

EDUCATION

Dronacharya College of Engineering, Gurugram University

2023 – 2027

B.Tech in Computer Science and Information Technology — GPA: 7.6 / 10.0 · Gurgaon, India

New Krishna Senior Secondary School, Najafgarh (CBSE)

Class XII (2021): 77.4% · Class X (2019): 91.4%

CERTIFICATIONS & ACHIEVEMENTS ([link](#))

- NPTEL — Introduction to Algorithms & Analysis (Elite)
- Infosys — Data Structures & Algorithms
- IBM — Introduction to Software Engineering
- Oracle — Generative AI Certified
- Cisco — Networking Basics
- IIT Bombay (Spoken Tutorial) — C Language
- Tech Saksham — Microsoft Foundation
- Python Programming Fundamentals
- C++ Programming
- Power BI Internship — AICTE
- Operations Simulation — Goldman Sachs (Forage)
- Project Management — Siemens (Forage)
- Internshipwala Certification
